Locker shelf information:

Fourth graders use lockers this year!

Dimensions of the shelf:

Width of the locker opening: 12 inches Width of the inside of the locker: 15 inches

(Some can be assembled once they are inside of the locker already)

Suggestions: Walmart, Target, and other stores have the plastic storage drawers! This is easiest. If you are handy — I have seen people make the shelf with the dimensions out of wood and that seems to be sturdy for all 5 years

Thank you! I can't wait for a great year together!
