Moment for Mission

Dear Parents,

From start to finish, 2024 offered many celebrations and milestones for Erie Day School. The campus entertained fun-filled family events, successful athletic competition, victorious academic challenges, passionate performances and joyous gatherings. We welcomed numbers of new families (and births among existing), offered service to others in our community and encouraged growth between the ages of 2-14 years! Every year EDS students, parents, Trustees, faculty, and staff are fortunate in gaining a sense of accomplishment. Our collective dedication to educational outcomes, relationships, developmental progress and community impact guarantees our success. Thank you for your continued commitment toward our mission.

I hope you are in position to enjoy the vacation and holiday festivities ahead. Personally, I am looking forward to having my tribe gather around the table and tree in conversation. Sharing memories, stories, hugs and laughter will be among my priorities. In that, will be thoughts of all of you and the powerful, loving impressions you given me these past 14 years. I am – and we are – truly blessed.

Here's to 2025 and the possibilities that await!

Yours in education,
